# COLOR THE WORLD MAP

1 YELLOW

2 ORANGE

3 BLUE

4 GREEN

## COLOR A COLORFUL MA

Discover the numbers in the map and color the elements accord

# ARTIC OCEAN

# PACIFIC OCEAN

# INDIAN OCEAN

# YOUR WORLD FOR YOUNG EXPLORERS

g to the color key.

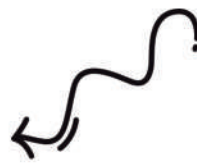

# PROTECT THE WATERS

Dear child, I hope you enjoy your coloring,  
When you grow up you need to remember  
to not throw trash in the water. Marine life  
can digest plastic and be injured.

# SAVE THE PLANET

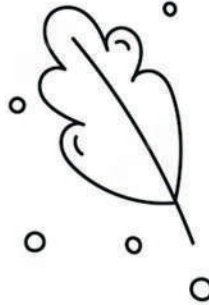

After a day spent at the beach with family  
collect the trash in a plastic bag and recycle it.

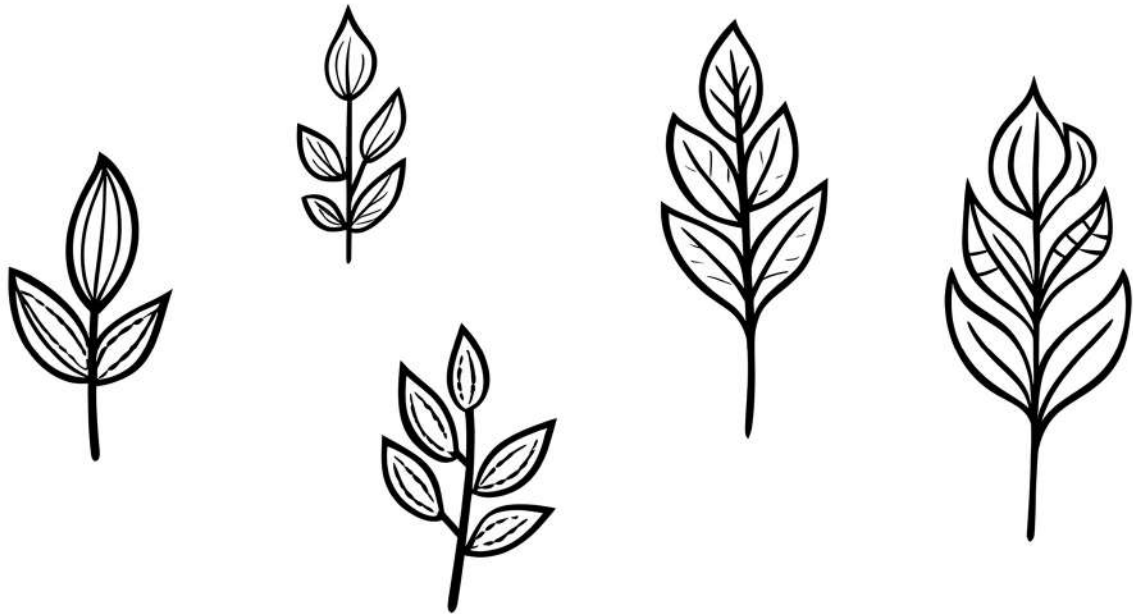

# SUSTAINABLE AND ECO-FRIENDLY MATERIALS

Pick products that are made in a way that helps our planet. You can choose products that are made from recycled materials, wood that comes from good places, fabrics that are made from plants, and things that are made without hurting the Earth.

**DIVERSITY**

SHOULD  
KEEP  
ALIVE  
OUR  
PLANET

Biodiversity is when many different plants and animals live together,

They all have special jobs to keep our planet healthy.

Let's take care of them!

They are among the oldest organisms on the planet,

They clean the air, reduce noise pollution, improve water quality, provide us with food, shade, and building materials.

Captures carbon dioxide from the atmosphere. they provide food for various living organisms, including humans.

They are responsible for improving the relative humidity of the air due to evapotranspiration.
